The Biometric Society

BIOMETRICS

FOUNDED BY THE BIOMETRICS SECTION OF THE AMERICAN STATISTICAL ASSOCIATION

VOLUME 37: 1981
Numbers 1–4

Published quarterly by
THE BIOMETRIC SOCIETY
WASHINGTON, D.C.
1981

BIOMETRICS

Editor
Peter Armitage

Associate Editors

Murray Aitkin
Richard G. Cornell
Robert N. Curnow
Nicholas E. Day
Klaus Dietz
Joseph L. Fleiss
Klaus Hinkelmann
Joseph Lellouch
Charles A. McGilchrist
Francis H. C. Marriott
Tadakazu Okuno
Donald A. Preece
Ross Prentice
Daniel L. Solomon
William G. Warren

Shorter Communications Editor
John J. Gart

Shorter Communications Associate Editors

Robert M. Elashoff
Vernon T. Farewell
Joseph K. Haseman
Stephen W. Lagakos
Melvin L. Moeschberger
Stuart J. Pocock
Subrahmaniam Kocherlakota
Robin Thompson

Book Reviews Editor
Richard M. Cormack

Subject Index
Ian Clarke

Editorial Assistants
Catherine W. F. Richenburg
Eileen Rimmer

French Translators
Dr R. Tomassone and members of the French section of the Biometric Society

Editorial Board
R. N. Curnow (Chairman), J. Badia, J. G. Correa da Silva, J. Delincé, J. J. Gart, J. D. F. Habbema, D. Rasch, H. Riedwyl, K. Takeuchi, H. Thöni, E. J. Williams, J. S. Williams

Former Editors
Gertrude M. Cox (1945–55)—*Founding Editor*

John W. Hopkins (1955–7)
Ralph A. Bradley (1957–62)
Franklin A. Graybill (1972–5)
Michael R. Sampford (1962–7)
Herbert A. David (1967–72)
Foster B. Cady (1975–9)

Published quarterly by THE BIOMETRIC SOCIETY

EDITORIAL OFFICE OF *BIOMETRICS:* Correspondence about editorial matters should be sent to the Editor, Professor Peter Armitage, Department of Biomathematics, University of Oxford, Pusey Street, Oxford OX1 2JZ, UNITED KINGDOM.

BUSINESS OFFICE: All correspondence about subscriptions, single copies, changes of address, claims for missing issues, and membership should be sent to the Biometrics Business Office, 806 15th Street NW, Suite 621, Washington, D.C. 20005, U.S.A. Members of the Biometric Society should also advise their respective Regional or National Secretaries (for addresses, see page v) of change of address to insure receipt of notices of meetings, ballots, and all dues notices.

Second-class postage paid at Washington, D.C. and at additional mailing offices. *Biometrics* is published quarterly—in March, June, September and December.

OFFICERS OF THE BIOMETRIC SOCIETY, 1981

GENERAL OFFICERS

President: R. M. Cormack
Vice President: H. A. David
Secretary: L. D. Calvin
Treasurer: J. H. Ellenberg
Business Manager: E. E. Thull
Editor: P. Armitage

COUNCIL

Council Members

1978–1981

P. Bauer, *ROeS*
W. Berchtold, *ROeS*
P. N. Corey, *ENAR*
R. G. Cornell, *ENAR*
R. Elashoff, *WNAR*
T. Postelnicu, *GRo*
D. Rasch, *RGDR*
V. Scheiber, *ROeS*
E. Scott, *WNAR*
G. A. F. Seber, *AR*
A. R. Sen, *ENAR*
M. Shikata, *JR*
J. Stene, *GDe*
J. Svab, *GHu*
A. Taube, *GSd*
G. A. Watterson, *AR*
C. Zippin, *WNAR*

1980–1983

H. Ahrens, *RGDR*
R. Curnow, *BR*
P. Dagnelie, *RBe*
C. Duby, *RF*
G. Enderlein, *RGDR*
Y. Escoufier, *RF*
H. Fink, *DR*
S. M. Free, *ENAR*
G. H. Freeman, *BR*
G. Gérard, *RBe*
B. Greenberg, *ENAR*
J. D. F. Habbema, *ANed*
S. Iyama, *JR*
M. Keuls, *ANed*
B. F. J. Manly, *AR*
E. Marubini, *RItl*
R. Mead, *BR*
J. P. Neves, *RBras*
P. D. Oldham, *BR*
G. Rossi, *RItl*
H. Runfeldt, *DR*
R. Van Strik, *ANed*
R. Vencovsky, *RBras*
T. R. Verdooren, *ANed*
N. Victor, *DR*

REGIONAL OFFICERS

Region	*President*	*Secretary*	*Treasurer*
Australasian	K. P. Haydock	A.J. Swain	D. Ratcliff
Austro-Swiss	P. Bauer	L. Havelec	M. Schneeberger
Belgian	G. Gérard	E. LeBoulenge	E. LeBoulenge

CONTENTS OF VOLUME 37

PART 1 (March 1981)

Intersite transfer of estimated response surfaces ..... C. L. Wood and F. B. Cady 1
A Bayesian approach to bioequivalence for the 2×2 changeover design
M. R. Selwyn, A. P. Dempster and N. R. Hall 11
Some efficiency results for the estimation of the mixing proportion in a mixture of two normal distributions ..... S. Ganesalingam and G. J. McLachlan 23
Clustering criteria and multivariate normal mixtures ..... M. J. Symons 35
Optimal designs for the analysis of interactive effects of two carcinogens or other toxicants
J. Wahrendorf, R. Zentgraf and C. C. Brown 45
The analysis of ratios of odds ratios in stratified contingency tables ..... D. C. Heilbron 55
Evaluating serial cancer marker studies in patients at risk of recurrent disease ..... M. H. Gail 67
On the distribution of the maximum of the logrank statistic and the modified Wilcoxon statistic
R. E. Tarone 79
Sequential clinical trials for normal variates using interval composite hypotheses ..... J. M. Lachin 87
On Seber's method for estimating age-specific bird survival rates from ringing recoveries
P. M. North and R. M. Cormack 103
A model for interyear change in the size of bird populations ..... G. J. G. Upton and G. A. Lampitt 113
The use of the sequential probability ratio test for monitoring the percentage germination of accessions in seed banks ..... J. Whitehead 129
Shorter Communications
Bayesian approach to the analysis of nonlinear models: implementation and evaluation
D. Katz, S. P. Azen and A. Schumitzky 137
On the Colton model for clinical trials with delayed observations—normally-distributed responses
P. Langenberg and R. Srinivasan 143
The height and weight of Nigerian children: the fit of Ehrenberg's equation ..... P. I. Uche 149
Estimation of the median lethal dose when responses within a litter are correlated
A. C. Segreti and A. E. Munson 153
The Consultant's Forum
Monotonic dichotomous regression estimates: a burn care example
R. A. Wolfe, L. D. Roi and E. H. Margosches 157
A simulated study of historical controls using real data ..... V. T. Farewell and G. J. D'Angio 169
Correspondence 177
Abstracts 179
Book Reviews 199
The Biometric Society 207
News and Announcements 209
Papers to be published in *Biometrics* 211

PART 2 (June 1981)

Comparison of different methods for decision-making in bioequivalence assessment
D. Mandallaz and J. Mau 213
Generalized Spearman estimators of relative dose ..... R. Morton 223
Analysing data from hormone-receptor assays ..... N. A. C. Cressie and D. D. Keightley 235
A general chain binomial model for infectious diseases ..... N. Becker 251
A variance components approach to categorical data models with heterogeneous cell populations: analysis of spatial gradients in lung cancer mortality rates in North Carolina counties
K. G. Manton, M. A. Woodbury and E. Stallard 259
Matching in epidemiologic studies: validity and efficiency considerations
L. L. Kupper, J. M. Karon, D. G. Kleinbaum, H. Morgenstern and D. K. Lewis 271
Comparisons of confidence intervals for attributable risk ..... H. M. Leung and L. L. Kupper 293
Area estimation by point-counting techniques ..... D. R. Bellhouse 303
Optimal sampling for pedigree analysis: sequential schemes for sibships ..... E. A. Thompson 313
Comparison of procedures for testing the equality of survival distributions
H. Joe, J. A. Koziol and A. J. Petkau 327
A generalized multihit dose–response model for low-dose extrapolation ..... K. Rai and J. Van Ryzin 341
Carcinogenic risk assessment: a guide to the literature ..... D. Krewski and C. Brown 353
Short Communications
Reflexive nearest neighbours ..... T. F. Cox 367

Maximum likelihood applied to a capture–recapture model ..... D. A. Sprott 371
Estimating probabilities from retrospective data with an application to cot death in Lambeth
R. D. Wiggins and M. Slater 377
The Consultant's Forum
A distribution-free test for tumor-growth curve analyses with application to an animal tumor immunotherapy experiment
J. A. Koziol, D. A. Maxwell, M. Fukushima, M. E. M. Colmerauer and Y. H. Pilch 383
Building multiple regression models interactively ..... H. V. Henderson and P. F. Velleman 391
Book Reviews 413
The Biometric Society 421
News and Announcements 423
Papers to be published in *Biometrics* 425

PART 3 (September 1981)

Tracking: Prediction of future values from serial measurements ..... J. H. Ware and M. C. Wu 427
An index of tracking for longitudinal data ..... M. A. Foulkes and C. E. Davis 439
An index of tracking ..... C. A. McMahan 447
General models for the joint action of mixtures of drugs ..... J. R. Ashford 457
Repeated-measures bioassay with correlated errors and heterogeneous variances: a Monte Carlo study
J. D. Elashoff 475
Modification of estimates of parameters in the construction of genetic selection indices ('bending')
J. F. Hayes and W. G. Hill 483
Statistics of natural populations. I: Estimating an allele probability in cryptic fathers with a fixed number of offspring ..... J. Arnold 495
Paired observations from a survival distribution ..... A. J. Gross and C. F. Lam 505
Estimation of the proportional hazard in two-treatment-group clinical trials
L. Bernstein, J. Anderson and M. C. Pike 513
Capture–recapture models allowing for age-dependent survival and capture rates ..... K. H. Pollock 521
Binary mosaics and the spatial pattern of heather ..... P. J. Diggle 531
A multivariate generalization of probit analysis ..... D. Kolakowski and R. D. Bock 541
Screening and diagnosis when within-individual observations are Markov-dependent
P. D. Wilson, J. R. Hebel and R. Sherwin 553
A three-sample test for selective pairing ..... J. C. Baskerville and J. J. Koval 567
Shorter Communications
Analysis of preferences in crossover disgins ..... I. R. Dunsmore 575
Analysis of curvilinear selection response ..... G. L. Bennett 579
The Consultant's Forum
Query: Series of unreplicated split-plot lattice experiments
Response ..... G. H. Freeman 585
Reader Reaction: Bioequivalence testing—A need to rethink ..... T. B. L. Kirkwood; W. J. Westlake 589
Correspondence 595
Abstracts 597
Book Reviews 621
News and Announcements 631
Papers to be published in *Biometrics* 633

PART 4 (December 1981)

The making and testing of geographic gene-frequency maps
A. Piazza, P. Menozzi and L. Cavalli-Sforza 635
Models for a simple capture–recapture procedure to estimate population size ..... P. M. North 661
General relative-risk models for survival time and matched case–control analysis ..... D. C. Thomas 673
Rank tests and a one-sample logrank test for comparing observed survival data to a standard population ..... R. F. Woolson 687
Design of censored survival studies ..... E. D. Lustbader and S. Litwin 697
Testing for a single outlier in a linear model ..... R. Doornbos 705
Bayesian nonparametric inference for effective doses in a quantal-response experiment ..... D. Disch 713
Composite randomization designs for clinical trials ..... R. Simon 723
Restricted maximum likelihood estimation of bias and reliability in the comparison of several measuring methods ..... R. L. Carter 733
A Bayesian change-point problem with an application to the prediction and detection of ovulation in women ..... R. L. Carter and B. J. N. Blight 743
A statistical test for classification, with applications to the characterization of pathogens according to antibiotic susceptibility patterns ..... R. C. Grimson and K. H. Chavigny 753
Exact significance levels for multiple binomial testing with application to carcinogenicity screens
C. C. Brown and T. R. Fears 763

Analyses for binomial data, with application to the fluctuation test for mutagenicity
B. J. Collings, B. H. Margolin and G. W. Oehlert 775
Shorter Communications
The statistical entropy of a sample from a community of species ..... P. Holgate 795
Evaluating diagnostic tests ..... L. A. Thibodeau 801
Design and sensitivity evaluation of follow-up studies for risk factor assessement
M. Halperin and N. J. Johnson 805
Category-matching of continuous variables in case–control studies W. J. Raynor, Jr and L. L. Kupper 811
The Consultant's Forum
An evaluation of some statistical methods for analysing numbers of abnormalities found amongst litters in teratology studies ..... E. A. C. Shirley and R. Hickling 819
Query: Regression models for repeated measurements
Response ..... M. Aitkin 831
Correspondence 833
Abstracts 843
Book Reviews 855
The Biometric Society 871
News and Announcements 873
Corrections 875
Papers to be published in *Biometrics* 877

Trichloromethane 153*
Tumor immunotherapy 383*
incidence 353*, 763*
remission 505

U statistic 439
Unbiased test 55*
Uncontrolled variables 1*
Unequal variances 475*

Validity 271*
Variable metric 35*
selection procedure, stepwise 595
Variance-based estimators 561
components analysis 259
Virtually safe dose 341

Wald's approximations 129*
Weibull Distribution 534, 837
Weight 149*
Westlake's method 589, 594
Wilcoxon statistic 327*
test 819
modified 79*
Wilms' tumor 169*
Within-individual variability 553*

Zeroes 834

INDEX OF BOOKS REVIEWED

ARNOLD, S. F. **The Theory of Linear Models and Multivariate Analysis** (S. R. Searle) 864

BELSLEY, D. A., KUH, E. and WELSCH, R. E. **Regression Diagnostics: Identifying Influential Data and Sources of Collinearity** (H. D. Patterson) 862

BOCK, H. H. (ed.) **Klassifikation und Erkenntnis III: Numerische Klassifikation.** (Dieter Rach) 199

BOUROCHE, J. M. and SAPORTA, G. **L'Analyse des Données.** (P. Dagnélie) 864

BRESLOW, N. E. and DAY, N. E. **Statistical Methods in Cancer Research, Vol. 1. The Analysis of Case-Control Studies** (P. I. M. Schmitz) 866

BRILLINGER, D. R. **Time Series: Data Analysis and Theory** (Brief Report by R. M. Cormack) 869

BULMER, M. G. **The Mathematical Theory of Quantitative Genetics** (B. S. Weir) 855

BURNHAM, K. P., ANDERSON, D. R. and LAAKE, J. L. **Estimation of Density from Line Transect Sampling of Biological Populations.** (C. E. Gates) 413

CAIRNS, J., PATIL, G. P. and WATERS, W. E. (eds) **Environmental Biomonitoring, Assessment, Prediction, and Management.** (R. L. Sandland) 625

CAMPBELL, H. (ed.) **Manual of Mortality Analysis** (L. Bulusu) 622

CLARKE, G. M. **Statistics and Experimental Design** (E. R. Williams) 419

CONOVER, W. J. **Practical Non-parametric Statistics. 2nd. ed.** (B. M. Brown) 621

CORMACK, R. M. and ORD, J. K. (eds). **Spatial and Temporal Analysis in Ecology.** (R. Mead) 625

CORMACK, R. M., PATIL, G. P. and ROBSON, D. S. (eds). **Sampling Biological Populations** (D. R. Anderson) 203

DANIEL, C. and WOOD, F. S. (with the assistance of J. W. Gorman) **Fitting Equations to Data.** (A. A. Rutherford) 418

DAVID, H. A. **Order Statistics** (N. I. Fisher) 861

DIDAY, E. *et al.* **Optimisation en Classification Automatique. Tome 1 et 2.** (R. Tomassone) 865

DIXON, W. J. and BROWN, M. B. (eds) **BMDP-79:Biomedical Computer Programs P-Series.** (A. J. B. Anderson) 204

DRAPER, N. R. and SMITH, H. **Applied Regression Analysis** (P. Sprent) 863

EASON, G., COLES, C. W. and GETTINBY, G. **Mathematics and Statistics for the Bio-Sciences.** (G. J. McLachlan) 417

EDWARDS, B. **The Readable Maths and Statistics Book** (R. M. Cormack) 629

EISEN, M. **Mathematical Models in Cell Biology and Cancer Chemotherapy.** (D. Y. Downham) 204

EVERITT, B. **Cluster Analysis** (A. D. Gordon) 417

EVERITT, B. S. and HAND, D. J. **Finite Mixture Distributions** (D. M. Titterington) 861

FINNEY, D. J. **Statistics for Biologists.** (M. Williamson) 621

FLEISS, J. L. **Statistical Methods for Rates and Proportions** (B. S. Everitt) 867

FREUND, R. J. and MINTON, P. D. **Regression Methods: A Tool for Data Analysis.** (J. C. Young) 200

GETZ, W. M. (ed.) **Mathematical Modelling in Biology and Ecology. Proceedings 1979** (D. L. Solomon) 415

GOLDSTEIN, H. **The Design and Analysis of Longitudinal Studies: their Role in the Measurement of Change.** (P. D. Oldham) 200

GREEN, R. H. **Sampling Design and Statistical Methods for Environmental Biologists.** (R. A. Kempton) 202

HARTL, D. L. **Principles of Population Genetics.** (B. S. Weir) 414

HAWKINS, D. M. **Identification of Outliers** (A. C. Atkinson) 861

INNIS, G. S. and O'NEILL, R. V. (eds) **Systems Analysis of Ecosystems** (J. N. R. Jeffers) 858

IOSIFESCU, M. **Finite Markov Processes and their applications.** (D. Cooke) 628

JOHNSTON, F. E., ROCHE, A. F. and SUSANNE, C. (eds) **Human Physical Growth and Maturation: Methodologies and Factors.** (M. A. Preece) 416

KALBFLEISCH, J. D. and PRENTICE, R. L. **The Statistical Analysis of Failure Time Data.** (M. Aitkin) 622

KENDALL, M. G. **Multivariate Analysis** (M. A. Moran) 622

KINGMAN, J. F. C. **Mathematics of Genetic Diversity** (B. S. Weir) 857

KRISHNAIAH, P. R. (ed.) **Developments in Statistics** (C. Cannings) 860

LEGENDRE, O. and LEGENDRE. L. **Ecologie Numerique, 1. Le Traitement Multiple des Données Écologiques. 2. Le Structure des Données Écologiques.** (J. D. Lebreton) 624

LEVY, P. A. and LEMESHOW, S. **Sampling for Health Professionals** (J. C. G. Pearson) 867

MARCHUK, G. I. **Modelling and Optimization of Complex Systems** (D. Covall) 868

MARDIA, K. V., KENT, J. T. and BIBBY, J. M. **Multivariate Analysis** (P. A. Lachenbruch) 199

MILLER, R. G., EFRON, B., BROWN, B. Wm. Jr and MOSES, L. E. **Biostatistics Casebook.** (D. J. Finney) 416

NEFF, N. D. and NAUS, J. I. **The Distribution of the Size of the Maximum Cluster of Points on a Line.** (A. D. Gordon) 414

NEWBY, J. C. **Mathematics for the Biological Sciences—from Graphs through Calculus to Differential Equations** (D. A. Holland) 855

OHTA, T. **Evolution and Variation of Multigene Families.** (M. Bulmer) 627

OKUBO, A. **Diffusion and Ecological Problems: Mathematical Models.** (B. J. T. Morgan) 413
ORD, J. K., PATIL, G. P. and TAILLIE, C. (eds) **Statistical Distributions in Ecological Work** (A. W. Kemp) 858
OSBORN, J. F. **Statistical Exercises in Medical Research.** (S. J. Daldry) 202
PATIL, G. P. and ROSENZWEIG, M. L. (eds) **Contemporary Quantitative Ecology and Related Econometrics.** (D. Brown) 626
RAMSEY, J. B. and MUSGRAVE, G. L. **APLSTAT: A Do-it-yourself Guide to Computational Statistics using APL.** (P. J. Diggle) 628
ROBERTSON, A. (ed.) **Selection Experiments in Laboratory and Domestic Animals** (R. N. Curnow) 857
ROBINSON, E. A. **Physical Applications of Stationary Time-Series.** (E. Renshaw) 629
SCHWARTZ, D., FLAMANT, R. and LELLOUCH, J. **Clinical Trials** (J. H. Ellenberg) 865
SERFLING, R. J. **Approximation Theorems of Mathematical Statistics** (Brief Report by R. M. Cormack) 869
SIMPSON, G. G. **Why and How: Some Problems and Methods in Historical Biology,** (R. E. Blackith) 627
STEEL, R. G. D. and TORRIE, J. H. **Principles and Procedures of Statistics: A Biometrical Approach.** (T. Caliński) 859
VAN VLECK, L. D. and SEARLE, S. R. (eds). **Variance Components and Animal Breeding.** (R. Thompson) 201
WEGMAN, E. J. and DePRIEST, D. J. (eds) **Statistical Analysis of Weather Modification Experiments** (R. W. Katz) 868
WEINBERG, R. and CHEUK, S. L. **Introduction to Dental Statistics** (Brief Report by R. M. Cormack) 205
WONNACOTT, T. H. and WONNACOTT, R. J. **Regression: A Second Course in Statistics** (G. H. Freeman) 863
WORF, D. L. (ed.) **Biological Monitoring for Environmental Effects.** (J. M. Elliott) 203
WÖRZ-BUSEKROS, A. **Algebras in Genetics** (I. M. H. Etherington) 627
WRIGLEY, N. (ed.) **Statistical Applications in the Spatial Sciences** (G. C. White) 869
